

Below is the email sent yesterday (11/12/15) at 9:48am to the entire nursing program class:

Dear Class fall 2015 nursing soon to be graduates:
Pinning is close. I know you are all excited for this final semester to be finished and the start of your professional life. I want to personally wish you the best.

The discussion of a vote concerning if the Gideon Society may hand out bibles at pinning has not clearly been decided.

President Foster called me today and would like to assure all will have a vote.

Please email back your vote below. It is not an option to not vote. You may abstain but I do need a return email from you letting me know you have received this email and have voted.

VOTE:

The Gideon Society may stand in the auditorium and hand a bible to those who wish to take one.

_____ Yes

_____ No

_____ Abstain, but I have read the email request.

Thank you for reading this email and replying to me by Monday, November 23, 2015.

I assure you I will only tally the votes and I will put no names to the vote and your email will be deleted as soon as the vote is cast.

If you have questions please ask me.
