

## 2023-2024 School Consolidation

Mesa Valley Education Association has proposed a Memorandum of Understanding regarding the Fruita School Consolidation. The details/ explanation of the plan are as follows:

1. If Fruita 8/9 School and Fruita Middle School are consolidated into one building, all non-centrally based staff of the two buildings will become the new staff at Fruita Middle School (relocated within the old Fruita 8/9 building) for the 24-25 school year.
2. The NEW Fruita Middle School's personnel committee and leadership team will be made up of the principal, two educators from each impacted school who are elected from the MVEA membership, and one educator from each school who is appointed by the principal.
3. One association representative from each building will serve on the leadership team.
4. All extra staff members per position will not be required to receive principal release should they find a mutual consent position at a different location.
5. Staff members can be required to teach any subject for which they have a valid state certification.
